SPHERR network

1st Annual Conference

Health Research, Policy and Practice-Creating Links for Effective Collaboration

PROGRAMME & ABSTRACT BOOK

Friday, Jan 9th, 2015

Royal College of Surgeons in Ireland 123 St Stephens Green Dublin 2

Full Conference Programme

		Registration & Coffee	Concours
09:30	Welcome Address & Introduction to the SPHeRE N	etwork -	Cheyne Theatr
	Prof. Hannah McGee, RCSI & Prof. Anne Hickey, Dir	ector of SPHeRE	
10:00	Keynote Address : Doing Health Service Research T	hat Matters	Cheyne Theatr
	Prof. Naomi Fulop, University of London and Chair	of the UK Health Services Research Network. Chaired	by Prof. John Browne, UCC
10:45		Coffee & Poster Presentation	Board Room & College Ha
11:15		Parallel Sessions 1	
	Responding to the Needs of Vulnerable and Older Groups	Health Services: Problems and Opportunities	Health Interventions: Learning from Research an Practice
	Chaired by Prof. Anne Hickey TR1	Chaired by Prof. Steve Thomas TR2-3	Chaired by Prof. John Browne TR4
11:20	Ms. Mary Walsh, RCSI Self-Reported Experiences and Long-Term Need in Community-Dwelling Stroke Survivors in Ireland: A National Survey	Dr. Niamh Humphries & Dr. Sara McAleese, RCSI 'I would love to come home, but could never work like that again'. A mixed method study on health professional emigration	Dr. Brian McGuire, NUIG Clinical effectiveness of the Progressive Goal Attainment Program (PGAP) for people who are work disabled due to back pain: a multicentre RCT
11:40	Dr. Anne O'Farrell, HSE Factors associated with hospitalisations among the elderly with a decubitus ulcer (pressure ulcer) in acute Irish hospitals 2008-2012.	Ms. Catherine Fitzgerald, UCD Knowledge and attitudes of antenatal women about newborn bloodspot screening.	Dr. Deirdre Connolly, TCD OptiMaL: A Primary Care-based Intervention for people with Multimor bidity
12:00	Ms. Nora Ann Donnelly, RCSI Systematic Review and Meta-Analysis of the Impact of Carer Stress on Subsequent Institutionalisation of Community Dwelling Older People	Mr. Conor Keegan, TCD Competitive incentives in Ireland's health insurance market – improving the design of the current risk-equalisation scheme.	Dr. Caragh Behan, DETECT/St. John of God/HRB Cost-effectiveness of early intervention in psychosis in an Irish Context
12:20	Dr. Emma Wallace, RCSI Risk prediction models to predict emergency hospital admission in community-dwelling adults: a systematic review.	Mr. Patrick Moran, TCD The impact of screening on breast cancer mortality and overdiagnosis in Ireland	Miss Catherine Quinn, UL/HSE The Effectiveness of a Multidisciplinary Pulmonary Rehabilitation Programme on Physical Fitness, Psychological Wel-being and self-management of respiratory symptoms in patients with COPD
12:40	Mr. Frank Moriarty, RCSI Determining the Relationship between Potentially Inappropriate Medi-	Dr. Fiona Keogh , Genio Can Health Services Research help bridge the implementation gap?	Dr. Susan Coote, UL Web-based Physical Activity Resources: Listening to the Voice of People with
	cations and Quality of Life in a Cohort of Older People		Multiple Sclerosis
13:00	·	Lunch	
	·	Lunch	Multiple Sclerosis
	People Keynote Address: Good practice in Involving and E	Lunch	Multiple Sclerosis Board Roor Cheyne Theatr
13:45	People Keynote Address: Good practice in Involving and E	Lunch ngaging Patients in Research	Multiple Sclerosis Board Roor Cheyne Theatr
13:45	People Keynote Address: Good practice in Involving and E	Lunch ngaging Patients in Research evelopment, Public Health England. Chaired by Prof. C	Multiple Sclerosis Board Roor Cheyne Theatr
13:45	People Keynote Address: Good practice in Involving and E Prof. Bernie Hannigan, Director of Research and De Responding to Chronic Illness: The Case of	Lunch ngaging Patients in Research evelopment, Public Health England. Chaired by Prof. C Parallel Sessions 2 From Childhood to College: Child and Youth	Multiple Sclerosis Board Roor Cheyne Theatr Charles Normand, TCD
13:45 14:30	Responding to Chronic Illness: The Case of Diabetes	Lunch ngaging Patients in Research evelopment, Public Health England. Chaired by Prof. C Parallel Sessions 2 From Childhood to College: Child and Youth Health Behaviours	Multiple Sclerosis Board Roor Cheyne Theatr Charles Normand, TCD Diverse Populations: PHHSR in Practice
13:45 14:30	Responding to Chronic Illness: The Case of Diabetes Chaired by Dr. Sarah Barry Ms. Lisa Hynes, NUIG It makes a difference, coming here': A qualitative exploration of clinic attendance among young adults with type 1 dia-	Lunch Ingaging Patients in Research Evelopment, Public Health England. Chaired by Prof. Control of Parallel Sessions 2 From Childhood to College: Child and Youth Health Behaviours Chaired by Dr. Amanda Slevin TR2-3 Ms. Eimear Keane, UCC Accelerometer based moderate to vigorous physical activity (MVPA) and the risk of childhood obesity: findings from the	Multiple Sclerosis Board Roor Cheyne Theatr Charles Normand, TCD Diverse Populations: PHHSR in Practice Chaired by Dr. Margaret Curtin TR4 Mr. Martin P. Davoren, UCC Bias in the assessment of health behaviour risk profiles in webbased versus self-administered surveys of university.
13:45 14:30 14:35	Responding to Chronic Illness: The Case of Diabetes Chaired by Dr. Sarah Barry Ms. Lisa Hynes, NUIG It makes a difference, coming here': A qualitative exploration of clinic attendance among young adults with type 1 diabetes Mr. Ronan Grimes, TCD Choice of initial oral hypoglycaemic agent affects future insulin use in	Lunch Ingaging Patients in Research Evelopment, Public Health England. Chaired by Prof. Control Parallel Sessions 2 From Childhood to College: Child and Youth Health Behaviours Chaired by Dr. Amanda Slevin TR2-3 Ms. Eimear Keane, UCC Accelerometer based moderate to vigorous physical activity (MVPA) and the risk of childhood obesity: findings from the Cork Children's lifestyle Study Dr. Siobhan O'Higgins, NUIG Prevalence, impact and economic cost of non-cancer pain among 5-12	Multiple Sclerosis Board Roor Cheyne Theatr Charles Normand, TCD Diverse Populations: PHHSR in Practice Chaired by Dr. Margaret Curtin TR4 Mr. Martin P. Davoren, UCC Bias in the assessment of health behaviour risk profiles in webbased versus self-administered surveys of university students Dr. Catriona Murphy, TCD Statin use compared to evidence based guidelines in those at high risk of cardiovascular disease mortality: evidence from
13:45 14:30 14:35 14:55	Responding to Chronic Illness: The Case of Diabetes Chaired by Dr. Sarah Barry TR1 Ms. Lisa Hynes, NUIG It makes a difference, coming here': A qualitative exploration of clinic attendance among young adults with type 1 diabetes Mr. Ronan Grimes, TCD Choice of initial oral hypoglycaemic agent affects future insulin use in subjects with early onset type 2 diabetes Ms. Pauline Wilson, St. James' Hospital An Analysis of Diabetes-Related Lower-Limb Amputations	Lunch Ingaging Patients in Research Evelopment, Public Health England. Chaired by Prof. Conception of Parallel Sessions 2 From Childhood to College: Child and Youth Health Behaviours Chaired by Dr. Amanda Slevin TR2-3 Ms. Eimear Keane, UCC Accelerometer based moderate to vigorous physical activity (MVPA) and the risk of childhood obesity: findings from the Cork Children's lifestyle Study Dr. Siobhan O'Higgins, NUIG Prevalence, impact and economic cost of non-cancer pain among 5-12 year olds living in Ireland: The PRIME –C Study Miss Catherine Perry, UCC Applying the Dietary Approach to Stop Hypertension (DASH) score to children: Is adherence to kidDASH associated with	Multiple Sclerosis Board Roor Cheyne Theatr Charles Normand, TCD Diverse Populations: PHHSR in Practice Chaired by Dr. Margaret Curtin TR4 Mr. Martin P. Davoren, UCC Bias in the assessment of health behaviour risk profiles in webbased versus self-administered surveys of university students Dr. Catriona Murphy, TCD Statin use compared to evidence based guidelines in those at high risk of cardiovascular disease mortality: evidence from the Irish Longitudinal Study on Ageing Ms. Sharon Cadogan, UCC: Baseline analysis of primary care requesting patterns for immunoglobulins (Ig) in the Cork-Kerry region: a cross sectional
13:45 14:30 14:35 14:55	Responding to Chronic Illness: The Case of Diabetes Chaired by Dr. Sarah Barry TR1 Ms. Lisa Hynes, NUIG It makes a difference, coming here': A qualitative exploration of clinic attendance among young adults with type 1 diabetes Mr. Ronan Grimes, TCD Choice of initial oral hypoglycaemic agent affects future insulin use in subjects with early onset type 2 diabetes Ms. Pauline Wilson, St. James' Hospital An Analysis of Diabetes-Related Lower-Limb Amputations in a large urban teaching hospital Dr. Geraldine Doyle, UCD Patient Level Costing: A Time-Driven Activity Based Method for Costing	Lunch Ingaging Patients in Research Evelopment, Public Health England. Chaired by Prof. Control Parallel Sessions 2 From Childhood to College: Child and Youth Health Behaviours Chaired by Dr. Amanda Slevin TR2-3 Ms. Eimear Keane, UCC Accelerometer based moderate to vigorous physical activity (MVPA) and the risk of childhood obesity: findings from the Cork Children's lifestyle Study Dr. Siobhan O'Higgins, NUIG Prevalence, impact and economic cost of non-cancer pain among 5-12 year olds living in Ireland: The PRIME —C Study Miss Catherine Perry, UCC Applying the Dietary Approach to Stop Hypertension (DASH) score to children: Is adherence to kidDASH associated with child body mass index (BMI)? Ms. Sarah Browne, DCU "We know what we should eat but we don't": The voice of adoles-	Diverse Populations: PHHSR in Practice Chaired by Dr. Margaret Curtin TR4 Mr. Martin P. Davoren, UCC Bias in the assessment of health behaviour risk profiles in webbased versus self-administered surveys of university students Dr. Catriona Murphy, TCD Statin use compared to evidence based guidelines in those at high risk of cardiovascular disease mortality: evidence from the Irish Longitudinal Study on Ageing Ms. Sharon Cadogan, UCC: Baseline analysis of primary care requesting patterns for immunoglobulins (Ig) in the Cork-Kerry region: a cross sectional study Mr. Patrick Moore, TCD Counting the Time Lived or the Time Left? Age, Proximity to Death and
