

Fully funded PhD, Supported by the [HRB CRF \(Clinical Research Facility\) UCC](#)

Project Title: PPI in clinical trials for vulnerable populations

This [HRB CRF \(Clinical Research Facility\) UCC](#) fully funded PhD involves a multistakeholder collaboration between CRFC, [PPI Ignite Network @ UCC](#) and UCC clinical trial partner(s). The PhD will address conceptual and implementation aspects of PPI in the context of clinical trials. The work will be embedded within one or more ongoing CRF/UCC trials. The PhD will inform ongoing CRFC best practice implementation of PPI in clinical trials for diverse patient population groups, as well as develop the theoretical and PPI implementation competence of the successful PhD scholar.

Funding arrangement: Full time four years.

Supports - Placement in CRC-F and UCC. UCC PhD supports and training.

Supported by PPI Ignite Network @ UCC

Registration: Full time

Stipend: €19,000

The PhD will be supervised by Professor Patricia Kearney, Site Lead PPI Ignite @ UCC and Dr Emmy Racine, Programme Manager, PPI Ignite @ UCC and a lead P.I. on one of the relevant trials.
